

## Peace

Once a man asked, "Oh! God, where is the peace?"  
Then God replied, "Where you can ask your wish at ease."  
It's not about the end of war,  
It's just to forget your fear.

It's not the order to give up your control  
It's only to stop the misuse of one's role.  
Peace is not the state where you can't compare,  
But it should baim for someone's welfare.

Peace is the state where one can be free  
To express the world what does he see?  
Peace and rule possess with mutual worth  
So that a federation can be the way of solitary growth.

Where everyone will take their own responsibility!  
Peace will surely grow with prosperity.  
Hence to get peace in life;  
Son! Stop blaming others for your lie.
